

# ANGELO BINONGGO

## Web Developer

Started with basic HTML, CSS, and JavaScript, gradually exploring UI/UX principles and web usability. Developed projects like CatPhotoApp and Personal Portfolio Website, applying structured coding and responsive design. Gained experience in usability testing, database integration (MySQL), and full-stack concepts, continuously improving through tech communities and real-world applications.

## About Me

Aspiring Web Developer with a passion for web development, database management, and user experience. Active in tech communities and constantly learning new skills to innovate and create efficient digital solutions. Enthusiastic about problem-solving, graphic design, and software development.
